

Title Index/Index des titres

1994, Volume 85

- Active living in communities: understanding the intention to take up physical activity as an everyday way of life, 418-21.
- Acute care hospital morbidity in the Blood Indian Band, 1984-87, 317-21.
- Acute respiratory infections in the Canadian Native Indian population: a review, 197-200.
- Alternative medicine use in rural Alberta, 308-9.
- Analyse géographique des disparités régionales de l'accessibilité temporelle des traumatisés de la route aux services d'urgence au Québec, Une, 41-46.
- Approach to the development of Practice Guidelines for Community Health Interventions, An, 58-S13 (Supp.1).
- L'auto-efficacité relative à la contraception chez les adolescentes et les adolescents : la validation de la version française de l'échelle de mesure de Levinson, 115-20.
- Bias in the design of studies which examine genetic and environmental influences on behaviour, 212-15.
- Biographical characteristics of injection drug users and behavioural predispositions related to HIV prevention and drug use, 264-68.
- Blood lead levels in children living near abandoned metal-recovery plants, 158-62.
- Blood lead levels in Noranda children following removal of smelter-contaminated yard soil, 163-66.
- Canadian national survey of perinatal HIV infection, 1991-1992, 239-43.
- Changing practice of public health nurses, The (Editorial), 153-54.
- Child sexual abuse: parent group leads to community and social action, 381-84.
- Classification of fatal occupational electrocutions, 322-25.
- Community Health Practice Guidelines: an important first step (Editorial), 55 (Supp.1).
- Community pharmacists' involvement in health promotion activities, 389-92.
- Community smoking cessation contests: an effective public health strategy, 95-98.
- Comparison of physical and laboratory measures between two Hutterite *Leute* and the rural Saskatchewan population, A, 299-302.
- Completeness of provincial Workers' Compensation Files to identify fatal occupational injuries, 244-47.
- Compliance for Kids: A community-based tobacco prevention project, 82-84.
- Comprehensive assessment of National Health Program Guidelines in Canada, A: management review and redirections, 63-66.
- Condom use and attitudes among heterosexual college students, 51-55.
- Consumer understanding and use of fat and cholesterol information on food labels, 334-37.
- Contamination de l'eau potable par les nitrates, La : analyse des risques à la santé, 192-96.
- Cost-effectiveness issues in hypertension control, S54-S56 (Supp.2).
- Current bicycle helmet ownership, use and related factors among school-aged children in Metropolitan Toronto, 121-24.
- Diet and drug consumption in a group of elderly residing in rural Newfoundland, 313-16.
- Directives pour la mesure et la surveillance de la tension artérielle ainsi que pour les interventions sur le mode de vie, S36-S43 (Supp.2).
- Drug therapy for hypertension: where we are, and where we might be heading, S48-S50 (Supp.2).
- L'éducation sanitaire et la télévision : histoire de cas d'un campagnonnage, 59-62.
- Enseignement de la santé publique et promotion de la santé en Hongrie : le rôle du Canada, 378-80.
- Entre les taxes et la vie des Canadiens, on a choisi (Éditorial), 79-80.
- Epidemic of small-pox in Quebec, supposed to depend upon the opening of an intramural cemetery 214 years old (History of Public Health in Canada), 149.
- Errors in assessment of blood pressure: blood pressure measuring technique, S18-S21 (Supp.2).
- Errors in assessment of blood pressure: patient factors, S12-S17 (Supp.2).
- Errors in assessment of blood pressure: sphygmomanometers and blood pressure cuffs, S22-S25 (Supp.2).
- Étude d'un agrégat de cancer dans une entreprise de métallurgie : implications pratiques pour la santé publique, 330-33.
- Étude de l'importance des obstacles à l'achat de condoms, 231-33.
- Excerpts from "Alcoholism — Disease and Irresponsibility" (History of Public Health in Canada), 9.
- Evaluation of the effectiveness of immunization delivery methods, S14-S30 (Supp.1).
- Evaluation of the effectiveness of routine restaurant inspections and education of food handlers, The: critical appraisal of the literature, S56-S60 (Supp.1).
- Evaluation of the effectiveness of routine restaurant inspections and education of food handlers, The: restaurant inspection survey, S61-S66 (Supp.1).
- Évolution de la pratique des soins infirmiers de santé publique (Éditorial), 154-55.
- Factors associated with cervical cancer screening: results from the Ontario Health Survey, 125-27.
- Factors associated with the obtaining of a second-trimester induced abortion, 402-6.
- Factors influencing prenatal class attendance among immigrants in Ottawa-Carleton, 254-58.
- Fatal and non-fatal childhood injuries in Metropolitan Toronto, 1986-1991, 269-73.
- Firearm deaths in Canadian adolescents and young adults, 128-31.
- Guidelines for measurement of blood pressure, follow-up, and lifestyle counselling, S29-S35 (Supp.2).
- Health behaviours of pregnant women in Fort McMurray, Alberta, 33-36.
- Health promotion perspective on the House of Commons' Report "Foetal Alcohol Syndrome: A Preventable Tragedy", A, 248-51.
- Hepatitis B vaccination and screening for markers at a sexually transmitted disease clinic for men, 338-41.
- High blood pressure in older persons: a high risk special population, S9-S11 (Supp.2).
- High cost of a nutritionally adequate diet in four Yukon communities, The, 310-12.
- Hypertension control: historic perspectives — 25 years of progress in Canada and around the world, S7-S8 (Supp.2).
- Immunization delivery methods: practice recommendations, S37-S40 (Supp.1).
- L'impact d'un service alimentaire en milieu scolaire sur la qualité de l'alimentation des enfants, 110-14.
- Informal smoking controls in Winnipeg households, 106-9.
- Interaction of smoking with gestational weight gain in influencing infant size, 407-12.
- L'interdiction de la vente de tabac aux mineurs : une concertation est nécessaire, 85-88.
- Is there a need for systematic blood lead screening in Canadian children?, 167-70.
- Killing taxes and Canadians (Editorial), 78-79.
- Lead in the environment (Editorial), 150-51.
- Leukemia mortality and farming in the prairie provinces of Canada, 208-11.
- Lifetime probability of developing lung cancer, by smoking status, Canada, 385-88.
- Lignes directrices en matière de pratiques de santé communautaire: Un premier pas important (Éditorial), S6-S7 (Supp.1).
- Management of imperfect evidence, The, 365-66.
- Maximizing influenza immunization in Edmonton: a collaborative model, 47-50.
- Motifs d'hospitalisation et durées de séjour d'une population d'itinérants de Montréal, 274-77.
- MSAFP levels in Aboriginal Canadian women, 424-26.
- Non-pharmacologic therapy in the management of hypertension: an update, S44-S47 (Supp.2).
- Occupation and the clinical characteristics of infertile couples, 28-32.
- Occupational exposure to *Mycobacterium bovis* infection in deer and elk in Ontario, 326-29.
- 1992 Ontario survey of public health nurses: perceptions of roles and activities, 175-79.
- Opinions des médecins québécois à l'égard du sida, Les : Partie I, 259-63.
- Opinions des médecins québécois à l'égard du sida, Les : Partie II, 344-46.
- Paradigms and public health: international disease control in the information age, 374-77.
- Partner notification for sexually transmitted diseases: an overview of the evidence, S41-S47 (Supp.1).
- Partner notification for sexually transmitted diseases: proposed practice guidelines, S53-S55 (Supp.1).
- Patterns of calcium intake among French-Canadians living in Montreal, 351-56.
- Perception des menaces environnementales par les enfants et les adolescents, La, 56-58.
- Personal, home and community safety promotion with community-dwelling elderly persons: response to a public health nurse intervention, 188-91.
- Pitfalls to avoid in the measurement of blood pressure in the elderly, S26-S28 (Supp.2).
- Plomb dans l'environnement, Le (Editorial), 151-53.
- Practice survey of immunization in Canada, S31-S36 (Supp.1).
- Predictors of physical activity intentions and behaviour for rural homemakers, 132-35.
- Prevalence of high risk sexual behaviour in adolescents attending school in a county in Nova Scotia, 227-30.
- Prévenir la propagation des maladies infectieuses dans le monde moderne (Éditorial), 371-73.
- Preventing the spread of infectious disease in the modern world (Editorial), 370-71.

- Principals' perceptions of school-based tobacco prevention, 93-94.
- Public awareness of the risks of drinking alcohol during pregnancy: the effects of a television campaign, 23-27.
- Public health and the Canadian state: the formative years, 1880 to 1920 (History of Public Health in Canada), 293-94.
- Public health nurses' quality of worklife: responses to organizational changes, 185-87.
- Reducing the incidence of coronary heart disease by managing hypertension: implications of syndrome X, S51-S53 (Supp.2).
- Regulated pre-employment medical examinations and their effect on the utilization of health services: the experience of 1,498 police cadets, Quebec, 1988, 348-50.
- Relationship between smoking and health, The — a review of the evidence (History of Public Health in Canada), 77.
- Relationship of smoking status to changes in knowledge and attitudes concerning restrictions on smoking, 103-5.
- 'Retrait préventif', The: an evaluation, 136-39.
- Risk of automobile accidents among elderly drivers with impairments or chronic diseases, 282-85.
- Risk factor awareness: a randomized telephone survey of public knowledge, S57-S60 (Supp.2).
- Risk factors for non-use of seatbelts in rural and urban Alberta, 304-6.
- Routine restaurant inspections and education of food handlers: recommendations based on critical appraisal of the literature and survey of Canadian jurisdictions on restaurant inspections and education of food handlers, S67-S70 (Supp.1).
- Rural public health (Editorial), 295-96.
- Santé publique en milieu rural, La (Editorial), 296-98.
- Saskatchewan's unique rural public health tradition (History of Public Health in Canada), 222.
- Self-efficacy scale for heart-healthy eating, A, 201-4.
- Seroepidemiologic study to determine the prevalence and risk of Hepatitis B in a Canadian heterosexual sexually transmitted disease population, 205-7.
- Seroprevalence of measles- and rubella-specific antibodies among military recruits, Canada, 1991, 278-81.
- Sexualité des adolescents et santé sexuelle (Editorial), 224-26.
- Similarities in drug use and depression among runaway students and street youth, 17-18.
- Smoking cessation and quality of life outcomes among older adults in the Campbell's Survey on Well-being, 99-102.
- Substance abuse: time for change (Editorial), 10-11.
- Surveillance of a community's fat consumption using a food frequency questionnaire, 397-401.
- Survey of public health partner notification for sexually transmitted diseases in Canada, A, S48-S52 (Supp.1).
- Teenage sexuality and sexual health (Editorial), 223-24.
- Theories of disease causation and their impact on public health in 19th century Canada (History of Public Health), 368-69.
- Tobacco use in northeastern Ontario teenagers: prevalence of use and associated factors, 89-92.
- Toxicomanies: l'heure est au changement (Editorial), 11-12.
- Trace element analysis of soils collected near a lead/zinc smelter, 156-57.
- Translating written material for community health research and service delivery: guidelines to enhance the process, 67-70.
- Trends in drinking driver fatalities in Canada, 19-22.
- Trends in the characteristics of clients of alcohol/drug treatment services in Ontario, 13-16.
- Twenty questions for tanning facility operators: a survey of operator knowledge, 393-96.
- Twin pregnancy: the distribution of maternal weight gain of non-smoking normal weight women, 37-40.
- Unintended and unwanted pregnancy in Halifax: the rate and associated factors, 234-38.
- Up-to-date denominators: evaluation of taxation family file for public health planning, 413-17.
- Work satisfaction, stressors and support experienced by community health nurses, 180-84.
